

# AUTO-PAIRING DW MODULES - "NO SUZY"

Finally, no need for another Suzy cable, meaning easier operation and simple/quick installation, with the latest automatic, digital wireless (DW) modules - no physical tractor/trailer connection.

Next generation DW technology ensures that there is no interference and no driver/operator input; the waterproof DW modules automatically pair to each other, without any 'button pressing' etc.

## Features and Benefits:

- No Suzy or Video Cables
- Ideal for multiple trailer operations
- No driver input (fully automatic pairing)
- Faster installation, especially for retro-fit
- Robust metal construction and waterproof IP69K
- Compact size (90mm x 65mm x 18mm)
- Interference free and up to 100m range

## When Used with a Camera and Monitor System:

- Reduce Accidents/Incidents and Insurance Premiums
- Meet compliance standards (elimination of rear blind-spots)
